

ANCHOR MP is an effective product to improve soil moisture infiltration and enhance irrigation efficiency in turf

COMPOSITION

25% Liquid anionic polyacrylamide

All ingredients are exempt from the requirements or a tolerance as specified in 40 CFR 180.1001,c.

CAUTION

KEEP OUT OF THE REACH OF CHILDREN

Read entire label for additional precautions.

NOT A PLANT FOOD PRODUCT

General Information

ANCHOR MP has been developed to increase net water infiltration, movement, distribution and availability of moisture in soils.

ANCHOR MP holds nutrients and nitrogen at the root zone by preventing soil leaching and surface run-off. Used as directed, **ANCHOR MP** is biodegradable and non-toxic to plants and animals.

When used according to the label, **ANCHOR MP** has shown to be effective increasing net water infiltration and reducing nutrient loss in the soil due to leaching.

ANCHOR MP is recommended for use at 1.5 - 2 ounces per 1,000 square feet and can be applied in a broadcast application or injected into an irrigation system.

To avoid product degradation and equipment corrosion, do not use iron, copper or aluminum containers or equipment.

Shake well before using this product.

Store at temperatures above 40 degrees F.

Directions for Use

The optimum rate of **ANCHOR MP** will vary depending on water quality, soil conditions, soil type, flow rate, and slope. Under most conditions, an application of **ANCHOR MP** at 1.5 - 2 ounces per 1,000 square feet should be used. **ANCHOR MP** should be applied 3 - 4 times per year to maximize product performance.

Broadcast Application: For best results, application should be made after aeration has been completed. Fill sprayer with the appropriate volume of water and slowly add **ANCHOR MP** while maintaining agitation. Remove all screens prior to mixing to avoid possible plugging. For best results, do not attempt to mix more than 1 ounce of **ANCHOR MP** with less than 1 gallon of water as the material may become too thick to spray. For best results apply **ANCHOR MP** within 24 hours prior to a normal watering cycle.

Irrigation Water Injection: Under most conditions, an application of 1.5 - 2 ounces of **ANCHOR MP** per 1,000 square feet in 0.25-0.50 acre inches of irrigation water should be used. Injection of **ANCHOR MP** can be made directly into the irrigation water while the water is running. Do not premix **ANCHOR MP** with water or attempt to apply through a filter system as plugging may occur. For best results use hoses and injection parts that are ½ inch or larger, utilize low volume pumps designed for use with polymers, adhere to all chemigation regulations including the use of check valves. Always take precautions to assure pump and lines are clear of water by flushing thoroughly with crop oil prior to injecting **ANCHOR MP** into the system. Upon completion of the application, crop oil should again be used to assure the pump and lines are clean of all product residues.

PRECAUTIONARY STATEMENTS

BEFORE USING THIS PRODUCT, READ ALL PRECAUTIONS, DIRECTIONS FOR USE, CONDITIONS OF SALE-LIMITED WARRANTY AND LIMITATIONS OF LIABILITY AND REMEDIES. KEEP OUT OF REACH OF CHILDREN. **CAUTION: SPILLED MATERIAL CREATES EXTREMELY SLIPPERY CONDITIONS. IF SPILLED CONTAIN, ABSORB WITH A SUITABLE ABSORBENT, AND DISPOSE OF ACCORDING TO LOCAL REGULATIONS.**

WHAT TO DO IN CASE OF CONTACT

If on skin: remove contaminated clothing and wash skin with soap and water. In case of persistent skin irritation, consult a physician. If swallowed: this product is not considered toxic based on studies on laboratory animals. If in eyes: flush eyes with clean water for 15 minutes. In case of persistent eye irritation, consult a physician. If inhaled: Move to fresh air and call a physician if irritation develops or persists.

STORAGE AND DISPOSAL

Store in original container only. Keep container tightly closed, do not allow water to be introduced into the contents of this container. Do not contaminate water sources by runoff from cleaning of equipment, disposal of equipment wash waters or spray waste. **Do not allow product to freeze in cold weather conditions. Freezing may affect the physical condition and may damage the material.**

CONTAINER DISPOSAL: Triple rinse (or equivalent) and add rinsate to spray tank, then offer for recycling or reconditioning, or puncture and dispose of according to state and local authorities. If burned, stay out of smoke.

For help in chemical emergencies involving spill, leak, fire or exposure to **ANCHOR MP**, call 1-818-899-4686.

Net Contents: 2 ½ GALLONS (9.464L)

Always read and follow label directions before buying or using this product. **PROVEN QUALITY.** **ANCHOR MP** must not be repackaged without written permission.
