ADVANCED ABSORPTION CRYSTALS
STRENGTHEN TURF, PLANTS, TREES AND FLOWERS

NUTRIMOIST

CRYSTALS

ABSORBS WATER AND NUTRIENTS FOR EXTENDED RELEASE

 AMERICAN SOIL TECHNOLOGIES, INC.

WHAT IS NUTRIMOIST?

Nutrismoist is an organic cross-linked acrylamide/ acrylic acid copolymer enriched with potassium ammonium (salts that are essential nutrients for plants). Each crystal expands as it absorbs liquid in the soil, slowly releasing its contents as the soil dries.

Reduces watering time

Slows evaporation

Sustains root system

Prevents wilting

NUTRIMOIST BENEFITS:

- Powerful, long lasting soil amendment
- Greatly reduces amount of water needed to grow lush plants
- Promotes higher fruit and vegetable productivity
- Reduces evaporation
- Holds moisture and nutrients in root zone
- Plants endure less stress between watering and chemical applications
