

SIRCLE SAVER SACK[®]

Premium Pivot Irrigation Protection[™]

INGREDIENTS: 50% Sodium Acrylate/Acrylamide Copolymer and 50% Inert Ingredients.

NON-PLANT FOOD INGREDIENT

DIRECTIONS FOR USE:

SIRCLE SAVER SACK[®]: Remove product from outer plastic bag, but leave black-mesh bag in tact. Hang sack from crossbar of irrigation tower pivot so water drips down over the sack, into the wheel track. Place sack 12-18 inches above the tire track. Sack will dissolve slowly with use.

STORAGE: SIRCLE SAVER SACK is stable for more than two years when stored below 110° F. If the sack is not completely dissolved at the end of the season, remove and store in dry location. Re-hang the following season.

PRECAUTIONARY STATEMENTS: CAUTION: The SIRCLE SAVER SACK exhibits a very low degree of toxicity. Few precautions are necessary when handling. Wash with soap and water after contact. Prolonged repeated skin contact may cause irritation/dry skin. Eye contact will cause irritation. Keep out of the reach of children.

NET WEIGHT: 10 lbs. (4.54 kgs)

U.S. Patent Pending

**Box Contains (4) 10 lb. Sacks
(Approximately 40 lbs. Gross Weight)**
