

AMERICAN SOIL TECHNOLOGIES BACKS DISTRIBUTOR AT AMARILLO FARM & RANCH SHOW (Amarillo, Texas) – December 2, 2005

American Soil Technologies' (ASTI) distributor, Gigot Aqua Solutions, participated in the Amarillo Farm & Ranch Show this November 29 through December 1, 2005 in Amarillo, Texas.

The Amarillo Farm Show is the largest agricultural show in the Texas Panhandle region, with over 825 exhibits and more than 370 companies exhibiting. The show is held annually at the Amarillo Civic Center.

Gigot featured ASTI's new center pivot saving technology, the Sircle Saver Sack™.

The Sircle Saver Sack hangs from the crossbar of center pivot towers, allowing water to drip over the sack, into the pivot track. The Sircle Saver Sack improves water infiltration and prevents ruts.

Untreated track

Treated track

ASTI developed the Sircle Saver Sack to:

- minimize repairs to center pivot gear boxes
- reduce tire slippage
- be easy to install
- last a full season in most areas

Sircle Saver Sack™

ASTI Vice President of Marketing, Johnny Dickinson, shares with a local grower at the Amarillo Farm & Ranch Show about ASTI's polymer products.

ASTI is dedicated to supporting distributors like Gigot Aqua Solutions at farm shows throughout the country.
